

## On Time, Every Time

## Mission

"At Work Stack Supply Co., our mission is to provide reliable, high-performance packaging and adhesive solutions that empower businesses to operate efficiently, securely, and sustainably. We are committed to quality, consistency, and customer satisfaction in every product we deliver."

## Innovation

At Work Stack Supply Co., innovation is at the core of everything we do. Our mission is to redefine packaging and adhesive solutions by developing smarter, more efficient, and sustainable products that meet the demands of today's fast-moving industries. We strive to stay ahead through continuous improvement, cutting-edge technology, and a commitment to quality that helps our customers work better, faster, and with confidence.

## Quality

Driven by a commitment to quality, every product is crafted to perform with precision, durability, and reliability. From packaging to adhesive solutions, each item is tested to meet the highest standards, ensuring consistent results and dependable performance in every application. The goal is simple: to deliver solutions that businesses can trust, every time.

# STRONG BONDS START HERE

**MASKING TAPES**

Masking Tapes comes with different grades like Paint grade, Furniture grade, automobile paint grade and High temperature resistance grade. The adhesion value and thickness of the paper has to be adjusted according to application.

We are supplying printed bopp tape i.e single color printing, double color, three color & many more color. The commonly used adhesive packing tapes that are used in sealing medium to heavy-duty carton sealing

**PRINTED BOPP TAPES**

**ANTI SKID TAPE**

Anti-skid tape is a versatile safety solution ideal for both residential and commercial use, offering reliable traction on slippery surfaces. Commonly applied to indoor and outdoor stairs, bathroom floors, ramps, and entryways, it helps prevent slips and falls in homes, offices, warehouses, schools, and public areas.

Double Sided Foam Tape for bonding, sealing and fixing different types of goods. These are made of rubber-based highly versatile materials. It mainly used for safety purpose marking of hazardous area, Lane marking, marking or identification of specific area and storage segment.

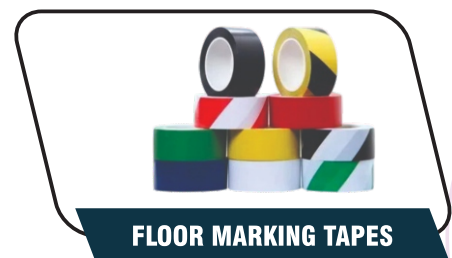

**DOUBLE SIDED FOAM TAPES**

**DOUBLE SIDED POLYESTER TAPES**

Double Sided Polyester Tape is a double-sided adhesive tape consisting of a transparent polyester film and Acrylic adhesive on both sides. The adhesive system is especially resistant to plasticizer and offers a secure bond even at high temperatures.

Floor Marking Tapes and aisle marking tapes are widely used in aisle marking, marking of hazardous area, cautionary marking or identification of specific area, floor and exit marking. Available in all Colors.

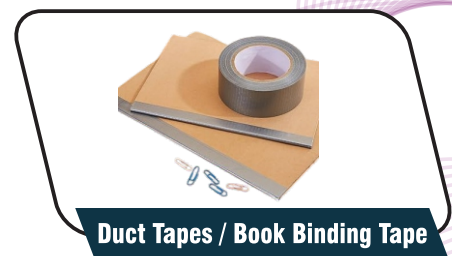

**FLOOR MARKING TAPES**

**REFLECTIVE TAPE**

Reflective / Warning tapes provide a visual barricade to block off designated areas. Available in economy, standard and reinforced grade. These caution and warning tapes block off potential hazards and are ideal for temporary use outdoors or permanent indoor warning.

Duct Tapes is cloth or scrim backed pressure sensitive tapes often laminated with polyethylene. There are a variety of constructions of these tapes which depends upon cloth or Scrim construction and adhesives

**Duct Tapes / Book Binding Tape**

# Performance You Can Trust – Protection You Can See

**STRETCH FILM ROLL**

Stretch film is a plastic wrap used mainly for wrapping and securing products during storage or transportation. It's highly stretchable and clings tightly to objects, helping to keep them stable, dust-free, and protected from moisture or damage.

Bubble rolls, commonly known as bubble wrap rolls, are essential packaging materials used to protect fragile and delicate items from damage during shipping, handling, and storage. Made from lightweight plastic with evenly spaced air-filled bubbles, these rolls provide superior cushioning

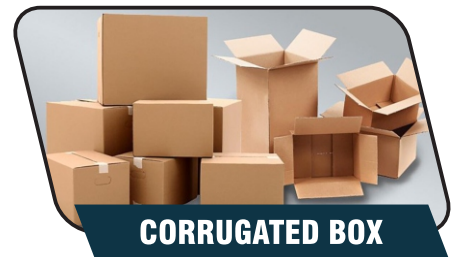

**AIR BUBBLE ROLL**

**EPE FORM ROLL**

EPE foam rolls are an ideal solution for protective packaging, offering a lightweight yet resilient buffer against shocks, scratches, and vibrations. Perfect for wrapping products like electronics, hardware, and fragile goods, these rolls provide excellent surface protection and cushioning during shipping and storage.

Corrugated boxes are durable, versatile, and cost-effective packaging solutions widely used across industries for storage, shipping, and product protection. Made from high-strength, multi-layered corrugated board

**CORRUGATED BOX**

**HOUSEKEEPING MATERIAL**

Housekeeping products are essential for maintaining cleanliness, hygiene, and a healthy environment in homes, offices, hotels, and commercial spaces. From everyday cleaning tools like brooms, mops, dustpans, brushes, and microfiber cloths to specialized items such as toilet brushes, squeegees, lint rollers, and scrub pads, these products ensure every surface stays spotless.

Corrugated box rolls, also known as corrugated paper rolls, are flexible and lightweight packaging materials designed to protect goods during storage and transit. Made from high-quality kraft paper with a fluted inner layer, these rolls provide excellent cushioning, shock absorption, and surface protection for items of various shapes and sizes.

**CORRUGATED ROLL**

**STATIONERY ITEM**

Stationery products are essential tools for productivity, creativity, and organization across homes, schools, and offices. From everyday basics like pens, pencils, erasers, sharpeners, rulers, and notebooks to filing supplies, sticky notes, planners, and highlighters, stationery supports efficient workflow and smooth communication.

Industrial safety products are vital for protecting workers in hazardous environments, ensuring compliance with safety standards and minimizing the risk of injuries. Key items such as industrial safety footwear offer reinforced toe protection, anti-slip soles, and durable materials to safeguard feet from heavy impacts, punctures, and chemical spills. Safety helmets provide essential head protection against falling objects, electric shocks, and head collisions.
